

## INTRODUCING THE AKIXI WALLBOARD APP

Did you know that you can now view your wallboards wherever you are, with the 5-star rated Akixi Wallboard app?

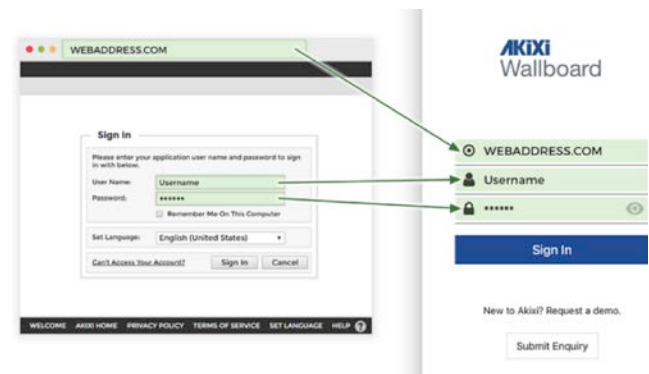

Developed in response to customer demand and launched earlier this year, the wallboard app gives Akixi 1000 and Akixi 2000 users the ability to view Desktop Wallboards on a smartphone or tablet – even if you are in a meeting, travelling or on the beach!

### Benefits

-  Monitor call queues and KPIs in real-time
-  Vibration or sound alert (or both) when alarms are activated
-  Switch between tile and list view
-  Available for Android and iOS
-  Free to install
-  Rated 5 stars on Google Play and the App Store

### Accessing the App – as easy as 1-2-3

1. Visit Google Play or the App Store and search for Akixi.
2. Install and open the application.
3. You will need to enter your Server URL, Username and Password. These are the same credentials that you use to log into the Akixi service portal from your browser.

### What Users Are Saying

"Definitely the bee's knees! Now I can verify my site's status wherever required... No more party mice when this cat is away!"

"A convenient way to keep eyes on things when out and about."

"A MUST have app. Neat, simple and easy to monitor your telephony system business statistics on the move."
